Citation mops are built with a rayon and polyester 4-ply yarn blend, giving high tensile strength and outstanding durability. Ideal for applying floor finish, disinfectants and germicides. Rinses and dries quickly. Available in wide and narrow bands. Available in white, blue and green.

Finish Mops

Finish Mate
Floor Finishing Mop

The Finish Mate is built with a special blend of rayon and polyester yarns to provide a smooth, even release of floor finish. Long staple fibers reduce linting. Four rows of tight spaced stitching minimize streaking. Available in 4 sizes, and with narrow and wide bands.

Economy Loop Mops

Atlas - Cotton Blend

The Atlas is an economical, very durable cotton blend that resists chemicals and has excellent absorption. Use where getting the floor dry fast is key. Available in natural white 4-ply yarn only. Available in wide and narrow bands.

Band	Small	Medium	Large	X-Large
Wide	545212	545216	545222	545228
Narrow	541212	541216	541222	541228

Roto-Loop

The Roto-Loop is built with 4-ply, closed-end cotton blend yarns. All of the plies are continuously looped throughout the mop. No tailbands. Price is slightly higher than cut-end mops because fraying and heavy linting are eliminated.

Mop Options

E-Z Stik

E-Z Stik mops use a male screw connector in the headband to attach the mop to a threaded wood stick. A metal band securely locks the yarn in place.

Twist-Lok

Twist-Lok mops have a durable, non-corrosive head that fits an economical threaded-tip handle. Available on 4-ply or 8-ply cut-end, standard loop and Roto-Loop mops.

Fan-Spread

A woven tape is double-sewn near the bottom of the mop to spread strands evenly. This is essential if a cut-end mop is to be laundered. Colored bands, and double Fan-Spread are available on special order.

Anti-Microbial Treatment

An optional chemical treatment inhibits the growth of germs and molds in the mop. Additives permanently bond to the mop fibers and will not wash out or be affected by cleaning agents.

Stick Mops

**Poly & Nylon General Purpose
Scrubbing Brushes**

Order by Bristle Type and Brush Block Size

Soft Black Nylon - (10" - 21")
#601-10 thru #601-21
Use soft, general-purpose bristles to scrub light soils on decorative tile and softer finished floors. Too soft for heavy soils. 1-3/4" trim. Long bristle life and great value!

Stiff White Nylon - (10" - 21")
#602-10 thru #602-21
Long lasting bristles for general-purpose scrubbing of medium soils on decorative floors. Will not scratch tile, terrazzo or coated surfaces. 1-3/4" trim length.

Nylon Carpet Brush - (10" - 21")
#619-10 thru #619-21
Two bristle sizes: the outer rows of stiff nylon carries the buffer weight. The soft nylon inner rows soften when wet to suds and gently scrub. 1-3/4" trim. Showerfeed holes in the block release shampoo from your solution tank to the carpet.

Soft (.020") Yellow Poly - (10" - 21")
#605-10 thru #605-21
Use with a detergent for lighter-duty scrubbing on waxed or finished floors. Lower cost but shorter bristle life than nylon. Longer life than natural fiber.

Stiff (.030") Blue Poly - (10" - 21")
#606-10 thru #606-21
General-purpose scrub brush for medium soils on concrete and coated floors. As aggressive as stiff nylon, with lower price but shorter life.

**Nylon Grit Stripping, Scrubbing &
Polishing Brushes**

Order by Bristle Type and Brush Block Size

46-Grit Abrasive Nylon - (10" - 21")
#615-10 thru #615-21
Our most aggressive grit brush for scrubbing unsealed concrete, heavy dirt, grease and compacted soils. Replaces black pads. Use with a steel clutch plate to handle high startup torque.

80-Grit Abrasive Nylon - (10" - 21")
#613-10 thru #613-21
Use this brush for commercial scrubbing on concrete, terrazzo and tile floors. Replaces black pads. Use wet.

120-Grit Abrasive Nylon - (10" - 21")
#614-10 thru #614-21
120 grit is great for lighter commercial and janitorial scrubbing concrete, terrazzo and tile floors. Replaces green or blue pads.

180-Grit Abrasive Nylon - (10" - 21")
#612-10 thru #612-21
For general scrubbing of softer, resilient non-slip flooring, ceramic, terrazzo, quarry tile and smooth coated concrete floors. Replaces blue or red pads.

500-Grit Abrasive Nylon - (10" - 21")
#610-10 thru #610-21
For light scrubbing and spray buffing of coated floors. Replaces over 100 red or white pads. Must be used wet.

Complete Your Brush Order

Rotary brushes are available in thousands of configurations.

To complete your order, specify:

- **Bristle Type** - based on your scrubbing task, cost, and expected brush life. Each type has a 3 digit name (e.g. #601 for soft nylon)
- **Brush Size = Brush Block Diameter** - Measure the diameter of current block, or call us with your buffer brand and model.
- **Mounting Hardware** - this is the hardware that locks the brush onto your buffer. Most buffers use clutch plates that are shown on page 21. If necessary, call us with your buffer brand and model. Special orders are filled in 5-7 days.

Rotary Floor Machine Brushes

Natural Fibers Scrubbing and Polishing Brushes Wire Stripping Brushes

Order by Bristle Type and Brush Block Size

Bassine Bristle Brush (10" - 21")
#607-10 thru #607-21
Black natural bristles scrub and polishing. Soak new bassine brushes in water then hang to dry before use. Often replaced by nylon. Lowest price but shorter brush life.

Union Mix Bristle Brush (10" - 21")
#608-10 thru #608-21
A mix of bassine and tampico natural fibers make a soft brush for light scrubbing and polishing of decorative floors. Often replaced with a soft poly bristle brush.

Tampico Polishing Brush (10" - 21")
#617-10 thru #617-21
Soft tampico fibers are great for polishing the smoothest waxed floors to a high shine. Never use on rough or uncoated floors. Softest brush around!

Wire Bristle Brush (10" - 21")
#609-10 thru #609-21
For cutting, stripping and scraping of heaviest soils and old floor finishes where dust control is not required. More aggressive than the heaviest grit brushes. Use with a steel clutch plate for extra strength. ALWAYS WEAR GLOVES WHEN HANDLING THIS WIRE BRUSH.

Bristle Style and Harpoon Style Pad Drivers

Order by Bristle Type and Brush Block Size

Short Bristle Pad Driver (10" - 21")
#620-10 thru #620-21
This general-purpose pad driver with 1/2" long poly bristles is used with a pad for stripping, scrubbing, buffing and polishing. A 1-1/2" tall riser is molded into the block, for extra height to use larger pads. Use with the #640PC optional pad centering device.

Long Bristle Pad Driver (10" - 21")
#621-10 thru #621-21
This driver has the same features as the short bristle version but uses 1" long, straight, stiff poly bristles to cushion and drive the pad. Use with the #640PC optional pad centering device.

Harpoon Pad Driver (11" - 21")
#625-11 thru #625-21
Harpoons are molded into a strong plastic sheet bonded to the pad driver block with riser. The harpoons hold and drive a pad. Showerfeed holes let scrub solution feed to the floor. Use with the #640PC optional pad centering device.

High-Speed Harpoon Pad Driver (11" - 21") #626-11 thru #619-26
The high-speed version has the same features as the standard harpoon pad driver, but adds a 1/2" thick foam pad between the pad driver block and the harpoon sheet. Use when buffing at 300 to 1100 rpm. Use with the #640PC optional pad centering device.

Sandpaper Drivers

Sandpaper Driver (15", 16", 17" and 19")
#650-15SD92 thru #650-19SD92

Sand hardwood floors with your floor buffer, a standard abrasive disc and this sandpaper driver. Available in 4 HDPE block sizes. A 3/4" thick felt sheet is bonded to the block and smooths the sandpaper surface, absorbs vibrations and minimizes chatter. Includes the LM92 Universal Clutch Plate. Vacuum dust control is recommended when sanding.

Mounting Hardware

#631-92P = Plastic "B" plate

#631-92 = Aluminum "B" plate
#631-92S = Steel "B" plate

Brushes and pad drivers use special hardware to lock the brush to the buffer. Hub City offers molded nylon, cast aluminum, or cast steel clutch plate for popular floor buffers. Special plates for specific machine makes and models are available pre-mounted on special order.

#631-92P = Plastic "B" plate
#631-92 = Aluminum "B" plate
#631-92S = Steel "B" plate

Call for other pad driver hardware, with your machine brand and model number. We have them all!
